

## WILBUR SAYS NAVY'S FOES WOULD BLINDFOLD FLEET

**Building Program's Critics Flayed; Shows Gunpowder's Cost Lower Than Face Powder Bill**

INDIANAPOLIS, Feb. 13. (AP)—Assailing the critics of the administration's navy building program, Secretary Wilbur declared here tonight they are unwittingly sponsoring a movement to make the navy fight blindfolded. He ridiculed those who attacked the cost of the program, asserting that the nine-year building program of \$740,000,000 is \$10,000,000 less than the candy bill of the United States in 1925. He also said that in 1925 women spent \$1,825,000,000 on cosmetics, and said that if the attacks upon the navy are based solely upon economic grounds it may be defentially suggested that there are times when gunpowder is more valuable than face powder.

"Speaking broadly," the Secretary told the Indianapolis Association of Credit Men, "we are not the only ones who are attacking the ships planned in this building program. It constitutes the eyes of the fleet. Those who are ignorantly attacking this program with a view of restraining naval armament, I think, do not perhaps realize they are trying to put us in a position where, in a sense, our sailor men will have to fight blindfolded."

**STEP FOR TREATY NAVY**  
The navy building program now receiving consideration by the House Committee on Naval Affairs represents an orderly step in the development of a treaty navy, the Secretary said.

"It would seem that in view of the recent World War and in view of the enormous sacrifices cheerfully made by this government and by the Navy in the interest of peace and harmony and disarmament their outpourings might well be productive, but the Naval Committee of the House is being hampered by telegrams, correspondence and resolutions expressing horror at the building program proposed by the Navy Department and by the President of the United States . . . . It should be noted that our building program is in a large measure a replacement program."

The Secretary said that immediately after the Geneva disarmament conference, "we were called to determine and to declare a naval policy. This conference was arranged by the Black Hills, South Dakota, shortly after the Geneva conference. We declared that we would proceed to build up the navy in accordance with our needs and in accordance with plans which we evolved before the Geneva conference would not cause us to depart from that program."

**PROGRAM EXPLAINED**

The fundamental reason that the present program is large is that we are building a fleet of a certain type and of the quantity needed during the period in which we hoped for a supplemental treaty limiting armament of this type of ship. We do not again desire to scrap new ships. We propose that we will use the limit and then build up to that limit. Instead of repeating what we did in the Washington agreement—upon a limit and scrap down to that limit."

"One of the reasons for proposing this program at this time is because we want to get behind us the building of these necessary auxiliaries before the time when we will be capable of replacement of battleships and capital ships in accordance with the terms of the Washington treaty for the limitation of naval armaments."

**PROPOSALS LISTED**

**FOR HOUSE COMMITTEE**

WASHINGTON, Feb. 13. (AP)—Putting the \$740,000,000 new warship-construction program in first place, the Navy Department has transmitted to Chairman Butler of the House Naval Committee a list of legislative proposals which it desires enacted into law at the present session.

A bill to authorize an appropriation of \$54,000,000 for the building of seven battleships is accorded second place, while third position is assigned to legislation to "conservation, care, custody, protection and maintenance of the naval petroleum and oil-shale reserves."

Other items in the order listed, include authority to proceed with construction at naval yards; construction of naval construction yards; assignment of fleet and port engineers; authority for extra pay for naval personnel, and a number of other proposals.

The Navy Department tomorrow will continue consideration of the ship-building program, having summoned a number of officials of ship-building companies for questioning.

**THE NAVY**

The Secretary said that immediately after the Geneva disarmament conference, "we were called to determine and to declare a naval policy. This conference was arranged by the Black Hills, South Dakota, shortly after the Geneva conference. We declared that we would proceed to build up the navy in accordance with our needs and in accordance with plans which we evolved before the Geneva conference would not cause us to depart from that program."

**PROGRAM EXPLAINED**

The fundamental reason that the present program is large is that we are building a fleet of a certain type and of the quantity needed during the period in which we hoped for a supplemental treaty limiting armament of this type of ship. We do not again desire to scrap new ships. We propose that we will use the limit and then build up to that limit. Instead of repeating what we did in the Washington agreement—upon a limit and scrap down to that limit."

"One of the reasons for proposing this program at this time is because we want to get behind us the building of these necessary auxiliaries before the time when we will be capable of replacement of battleships and capital ships in accordance with the terms of the Washington treaty for the limitation of naval armaments."

**OTTUMWA (Iowa) Feb. 13. (AP)—**Grief stricken because of prospects of a long separation, Dewaine V. Raines, 19-year-old apprentice seaman of the Navy, and his 16-year-old bride, Genevieve Dwyer Raines, killed themselves by swallowing poison last night. Both lived in Fairfield, Iowa.

Raines was scheduled to leave Fairfield last night for the Great Lakes naval training station at Chicago and expected to be sent from there to the naval base at San Diego.

**STAND LONG GRIND**

Lindbergh said that in his opinion the good-will tour of the South has demonstrated that aircraft can be used longer and can stand more wear and tear than has been generally believed.

The spirit of St. Louis, he said, eventually will find its way to the Smithsonian Institute at Washington. Just when he will never the partnership of "We" he failed to say. It is, however, his desire to return and turned over to the Department of Commerce for whatever use they may be to the cause of aviation.

Coming to the annual Lincoln Day banquet of the Young Republicans Association he commented in his flight today, the flying colonel said he had rather pleasant sailing until he struck the north shore of Florida. The fog and mist began to obscure his vision. After reaching the mainland he turned the nose of his monoplane northwest and maintained this direction until he came to the Mississippi River.

**FOLLOWS UP RIVER**  
"When I hit the Mississippi," he said, "I followed its banks north until I came to the mouth of the Mississippi River. This served as a landmark and I made a header for the field. It seems mighty good to be back again with my old friends. St. Louis is my home and always will be."

He retired early saying he was tired and wanted rest to prepare for the activities that have been planned for him here tomorrow and during the week.

**HERES GLARING STORY TOLD BY LINDBERGH'S AIR FEATS**

NEW YORK, Feb. 13. (AP)—When Col. Charles A. Lindbergh left today for Havana from St. Louis, he left behind him an air trail untraveled in large part before the partnership of "We" biased its way along the overhead route above mountains and jungles.

The flying colonel left Washington for Mexico City on the 12th, and on the 13th, after a day's flying on to the Mexican capital in a day and night of steady air travel. Since then he has covered 2,000 miles and visited thirteen countries and two United States possessions.

In two months the lone eagle has dropped in on Mexico, Guatemala, British Honduras, Salvador, Honduras, Nicaragua, Costa Rica, Panama, Colombia, Venezuela, Virgin Islands, Porto Rico, and Cuban Republics.

(Continued from First Page)

at loyalty, devotion to country, as the basis of international cooperation.

In the name of peace there are numerous organizations with foreign alliances and American memberships, comprising Bolsheviks, Socialists, Liberalism and ultra-pacifists all tend to the same end. Yet all do. All these organizations are either willing or unwilling agents of disintegrating forces, and the cause of the rebellion Lincoln faced.

**VISCONTI ASTOR**

**PAYS TRIBUTE TO LINCOLN**

WASHINGTON, Feb. 13. (AP)—Viscount Astor extolled Lincoln at the birthday luncheon honoring the American Civil War President today, discussed Anglo-American relations, and asserted the "100 per cent citizen" as a model of the kind of man he believed Lincoln not as the typical American, but as the embodiment of the best qualities of the citizens of all countries.

"Or course, in one sense, everything relating to commerce is artificial, having been legislated to satisfy particular agencies. But these things are not artificial as far as the code is concerned for the benefit of the people.

To introduce into the Pan-American Union this most delicate subject, the exercise of the right of sovereignty of peoples would be to invite the destruction of the Pan-American Union by arousing controversies and discussions, by putting it in controversy with legislatures.

**EACH TO ITSELF**

"If any particular country has a special interest in particular goods, the proper way is to have recourse to negotiation and to present facts to the legislatures, so that such a country may decide the matter according to its best interests."

"I think it was for these reasons, not for any special reason affecting the United States only, that all but the chairman of the Argentine delegation felt that we ought not to introduce special economic problems

once every two weeks.

**PHILAN ATTACKS MODERATE BIOGRAPHERS**

SAN FRANCISCO, Feb. 13. (AP)—James D. Phelan, former United States Senator, speaking at Lincoln Day Memorial exercises in the Civic Auditorium, assailed the moderate biographers of early Americans.

An audience comprised of more than 5,000 veterans of the Civil War, and Abraham Lincoln, and William Howard Taft, cheered Phelan as he condemned historians for what he termed "futile efforts to dim great memories."

"The only way the memory of a great man can be attacked is with ink," said the former Senator.

A new statue of Abraham Lincoln, the work of Haig Patagian, was unveiled.

**MISSING BOY HUNT AIDED BY BROADCAST**

LINCOLN (Neb.) Feb. 13. (AP)—Radio and the press throughout the Middle West were resorted to today in an effort to find Jimmie Stoll, 17, a Negro boy who disappeared from a Nebraska Wesleyan University freshman, who disappeared from his fraternity house here last Wednesday.

**Labor Blow at Government in England Fails**

LONDON, Feb. 13. (AP)—A Labor party motion complaining of the government's failure to deal with the unemployment situation was defeated tonight in the House of Commons by a vote of 291 to 171.

In the course of the debate on the motion Prime Minister Stanley Baldwin, who defeated the government's motion, said the Washington convention fixing the eight-hour day as the standard for labor. He argued that until absolute clearness on all points in the eight-hour day was achieved, the government would not be able to maintain our standard of life if we left ourselves open to competition which is the view of the government.

He added that the British government is most eager to obtain a revision of the convention, which would remove every doubt from the minds of all participants.

## TARIFF BLOCKS HAVANA ACTION

**Argentine Delegate Insists on Raising Issue**

**Refuses to Sign Convention for Future Guidance**

**All Other Nations Oppose Pueyrredon's Stand**

(Continued from First Page)

therefore, economic problems should not be introduced into the preamble of the Pan-American Union, for that would bring the union into conflict with legalities.

Raoul Urbina of Mexico offered opposition to the Pueyrredon proposal because, while he agreed that the fundamental economic problems of the American people must be studied if real Pan-American progress is to be made, Argentina's suggestion, he said, was not general enough. He suggested that a conference be called for all the American countries to discuss all economic problems, but that the Argentine delegation should be brought with greater hope of success. Now, however, he thought it impossible to agree to the Pueyrredon proposal without full study of its purport.

"It was quite apparent early in the discussions that the majority of delegates were not favorable to giving the Pan-American Union power to levy taxes and duties. No country

can live without revenue. I notice that the chairman of the Argentine delegation added, 'We must not destroy the Pan-American Union by making it a tariff committee.' I think that is the main point of the Pueyrredon proposal."

"We in the United States have learned to consider a tariff as a political matter. I oppose the same kind of other committee, namely, a co-operative, or a tariff committee, of countries which are bound up with the Pan-American Union.

"The conference was opened by Dr. Bustamante, the Cuban delegation president.

Dr. Bustamante's exhaustive codification of private international law, the text of which was adopted without a negative vote.

"An ovation was given the Cuban leader upon the approval of the code, which concluded the conference.

The text of the code was accompanied by a draft of a convention of private international law, both receiving approval. The spirit of the draft, which was to codify the existing private international law was expressed in the preamble to the convention permitting contracting parties to make reservations on one or several of the various articles of the code.

**UNITED STATES TIED**

In considering the Bustamante code, United States delegates took no active part. Early in the deliberations of the committee appointed to discuss the code Justice Judge J. O'Brien, seconded by Dr. James Brown Scott, had definitely placed the United States in a position of leadership in so far as private international law is concerned. The Bust

HOOVER GOES  
ON VACATION

Decides Suddenly on Week's  
Rest at Key West

Camera Men Mob Candidate  
Before Departure

Secretary Being "Used" in  
Ohio, Say Willis Backers

(Continued from First Page)  
friends in the delegation should be  
free to exercise their judgment.  
Senator Willis and his managers  
had refused to support the reselection  
proposition and Secretary Hoover  
had adopted the only course which  
was open to him."

Representative Theodore B. Ulmer  
of Ohio, who formerly was a  
keynote speaker at the Cleveland  
convention in 1924, when Coolidge  
was nominated, recommended that  
Hoover be selected as the most  
powerful Republican factor in  
the Buckeye State. He declined to  
make any formal statement at this  
time but was plainly delighted over  
the close-cut selection made by  
Secretary Hoover in consenting to have  
his name entered in the Ohio pri-  
mary. The delegation to the convention  
will go to Ohio March 15 and will  
have some time there in the interests of  
electing Hoover delegates in all sec-  
tions of the State.

CLEARS REPUBLICAN AIR

It became certain today that no effort  
will be made to reselect Senator Willis  
in the Indiana primaries as there  
seems to be no real reason for it  
and if no contest is made there the  
delegation will make the choice for  
Hoover at Kansas City. From Michigan  
comes more and more information  
that Hoover will have a solid  
delegation from that State as the  
sentiment is overwhelming for  
the Secretary of Commerce. The only  
other candidate to enter the Michigan  
primaries as yet is former Gov.  
Lawson T. Little of Michigan, a favorite  
son, but both the cities and  
farming sections are two to one for  
Hoover and he will have no difficulty  
in having the entire delegation  
for him from the first to last at  
Kansas City.

Hoover's declaration that he would  
not be a candidate in the primaries has  
brought him out into the open in the  
other States of the Union and has  
ended the continual shadow boxing  
and political maneuvering. His declaration  
as a fair contest on his principles  
and for the spending of only necessary  
money and strict accountability  
of all contributions cleared  
the Republican leaders and stimulated  
the entire Hoover movement all  
over the country.

HOOVER'S NAME APPLAUDED  
AT REPUBLICAN CLUB DINNER

NEW YORK, Feb. 13. (Exclusive)—  
The name of Herbert Hoover, Secretary  
of Commerce, was given with  
enthusiasm at the annual Lincoln dinner  
of the National Republican Club, held at  
the Waldorf-Astoria. Mr. Hoover was  
the only member of the club who  
was regretting his inability to be  
present.

Hoover's declaration that he would  
not be a candidate in the primaries has  
brought him out into the open in the  
other States of the Union and has  
ended the continual shadow boxing  
and political maneuvering. His declaration  
as a fair contest on his principles  
and for the spending of only necessary  
money and strict accountability  
of all contributions cleared  
the Republican leaders and stimulated  
the entire Hoover movement all  
over the country.

## MEXICAN QUOTA HEARINGS FIXED

House Committee Will Sit for Next Month

Labor Unions and Churches Chief Opponents

Grange Organizations Would Limit Farm Acreage

WASHINGTON, Feb. 13. (AP)—Anticipating a long-drawn-out struggle on the question of restricting Mexican immigration, Representative Johnson of Washington, chairman of the House Immigration Committee, today obtained permission for the committee to sit while the House is in session the next thirty days in considering the Box bill, which would put Mexico under the 3 per cent quota act.

Hearings start Wednesday and have been mapped out to last two weeks, with the time usually allotted to various proponents and opponents of the measure. However, it was decided today that much more time probably will be necessary to hear the statement of testimony that will be presented. Representative John C. Box of Texas, author of the bill limiting Mexican immigration, said his opinion "at least four or five weeks will be required."

### CARLOAD OF ADVICE

There is easily a carload of telegrams, resolutions, letters, reports and other data bearing on the Mexican question waiting to be dumped on the committee's docket.

Opponents of the bill are from Southern California and Southwestern States, which depend upon Mexico for their labor. They represent the sentiment of farm organizations, chambers of commerce, business interests and civic groups.

The two-thirds of the bill come from labor unions, churches, schools, college professors and writers in the same sections.

The demands are no great. Chairman Johnson today reported his bill that both friends and foes of the bill would have to concentrate their efforts and reduce testimony to a minimum. "Otherwise, the committee has to be tied up for the rest of the session and have time for nothing else."

### TOO MUCH FARMING

A joint letter sent to all members of Congress today by Washington representatives of the National Grange, American Farm Bureau Federation and Farmers' Union opposing any legislation which would increase farm acreage in this country was introduced a day later at the Box bill. It asserted that agriculture was in a slump, due largely to overproduction, and that no effort to increase crop production should be made. The letter was signed by Fred Brueckner of the Orange, Chester H. Gray of the Farm Bureau and Charles R. Barrett of the Farmers' Union.

The issue of Mexican immigration has been before the House and Senate committees since 1921, but heretofore efforts have been from the other side and have been directed at breaking down present limitations rather than at establishing new ones.

Now that the stick has come from another quarter, the struggle has taken on an intensity not known before.

Congressman Box today likened the Mexican situation to that existing in California and other Pacific Coast States for many years on the Japanese question and predicted that ultimately Congress will "act on the Mexican immigration question as it did on the Japanese question."

# Oil News

BY HOWARD C. KEGLEY

Latest authentic reports from Bakersfield district indicate that the Pacific Eastern Production Company, the California-based oil company, has completed another site in its post-oil field in the Kern River field, which is one of the most actively drilling districts in California at the present time.

**Stands Cemented**

George F. Getty, Inc., new wildcat operator in the Kern River field, and west of the present Seal Beach field, is standing cemented at a depth of about 600 feet, according to field reports.

**Start New Posthole**

The General Petroleum Corporation, the Southern Oil Company, and the Doheny brothers are the principal operators in the Kern River field, which is one of the most actively drilling districts in California at the present time.

The Pacific-Easters' Frutivale well yesterday was pumping at the rate of 175 barrels per day of 30.50 specific gravity, with the fluid level at the top of the well, and every indication that the well is finally and definitely producing, which it can be expected to maintain consistently.

The Pacific-Easters' Frutivale well is the first well of the year to be put into production, and is 23 deg. gravity, with the fluid level at the top of the well, and every indication that the well is finally and definitely producing, which it can be expected to maintain consistently.

Oil men regard the completion of the Frutivale well as the most important oil-field development of recent months in the oil-producing area. One of the significant features of the completion is the fact that it is producing from oil-bearing tight sandstone at the bottom of the well, being at 3850 feet, with the water string set at 3832 feet.

**New Drilling Campaign**

Development of the outlying districts of the Cat Canyon oil field of Santa Barbara will be launched immediately, it was announced yesterday following a meeting of the board of directors of the Palmer Union Oil Company. The decision of the company to drill 100 wells in the north and east of its present producing wells on the Stendel lease of 720 acres is of interest to operators in the northern part of Santa Barbara county.

Authorization for the purchase and installation of new compressor units and new pumping equipment, was given the management of the company. The first well to be drilled will be adjacent to the company's first four wells on the Stendel lease, No. 10, Stendel No. 14, the last to be placed on production, is reported to be making good progress. It was brought in January 18.

The Palmer Union's report for January showed that it obtained 10,453 barrels from the Blachman lease and 26,300 barrels from the Stendel tract, a total production of approximately 47,654 barrels.

**Report Oil Find**

The discovery of oil in Humboldt County, twenty-five miles west of Eureka, on the Mattole River, was reported yesterday as the result of a search made by J. O. Reynolds, Pasadena police officer from his son, J. Q. Reynolds, Jr., who was drilling in that area for several hours.

The report could not be confirmed last night, and no details were available beyond the report that the well was made at about 2000 feet.

There have been sporadic oil explorations in Humboldt County for several years, and some of the wells drilled have reported gas showings, but none have yet developed commercial production.

**Setting Water String**

Reports from Watson that the crew of the White-Wehr well was setting a water string caused considerable speculation in Los Angeles oil circles yesterday. No information as to where the casing was being landed was available, although it is understood that the hole is about 4810 feet.

Several weeks ago the White-Wehr well was reported to have found oil showing at about 4400 feet, and it is possible that some operators that the water string is being set at about 4800 feet.

**Quit Camarillo Well**

The definite abandonment of the Standard Oil Company's wildcat well east of Camarillo, and the surrender of the lease to the company, was officially reported by Standard Oil officials yesterday. The well was drilled about 5800 feet. It was started about a year ago, but had been idle for the past several months. It is understood that the Standard Oil Company had about 1000 acres under lease in that area, and that it comprising the property of the Camarillo Rancho, but it is all being well-claimed, it is said.

**Report Oil Shown**

The Olympic Refining Company has been drilling at Sunset Beach, between Huntington Beach and Seal Beach, for the past month, is down about 3765 feet, according to field reports. The formation at the present depth is said to be about 3000 feet, and about 3710 feet is understood to be the well when sand showing a definite cut.

**Oil Well**

The Scott Petroleum Production Company, which has been preparing in the Carpinteria district for the drilling of a well about 1800 feet according to field reports. The well is down about 2350 feet, and is understood to have had some good showings of gas.

**Oil Well**

The California Petroleum Corporation, has about 200 barrels a day of its Lehman oil well, latest completion in the Kern River oil field, according to field reports. The well was brought in at approximately 3000 feet, and is a leading clean oil testing about 15 deg. gravity, it is said.

The California Petroleum Corporation, the George F. Getty interests,

have a well in the San Pedro and Wilmington, and the Harbor Department will run free in-

2000 feet, and 2000 feet, and the well is down about 2350 feet, and is understood to have had some good showings of gas.

## CANCER FIGHT DETAILS GIVEN

Albert Fuchs Will Endow  
Medical InstitutionSanta Monica Millionaire to  
Use Chicago PropertyFoundation to be Tribute to  
Late Pianist Wife

By a "Times" Staff Correspondent  
SANTA MONICA, Feb. 13.—As a tribute to the memory of his wife, Fanny Richter Fuchs, noted pianist who died a cancer victim last Friday night, Albert Fuchs, retired Chicago florist, gave full details today concerning his plan to endow a great institution for combating cancer.

At his Santa Monica home, 130 Adelaide Drive, millionaire Fuchs stated he was appointing the Continental National Bank of Chicago, through David Lewis, vice-president, in trust of the fund, consisting immediately of Chicago properties worth approximately \$250,000, and to be increased many times.

**WILL PROVIDE INCOME**

The Chicago Medical Association and representatives of Chicago will cooperate in handling the fund, according to the plan discussed today. One of the properties immediately involved is at Fifty-first street and Michigan avenue, a two-story, seventy-five-foot frontage at 3138 Michigan avenue. The latter was purchased from Michael Cudahy.

At his death, Mr. Fuchs will turn over to the cancer fund an income of \$5,000 a month, together with a seven-acre property bounded by State, 39th, Halstead street and Broadway. This property, now improved with the Chateau Apartments of 102 apartments, a six-story hotel, a 2,000-seat theater, forty-eight stores and many times.

## Huerta and Four Aides Acquitted on Charge of Mexican Arms Plot

### TRANSPORT OF GUNS ADMITTED

But Defense of Sonora from Indians Pleaded

Intended to Ask Permit for Border Crossing

Case of Thayer, Munitions Expert, Dropped

Adolfo De La Huerta, former provisional President of Mexico and at one time Governor of Sonora, Mex., and four of his aides were declared not guilty yesterday by a jury in the court of Federal Judge Henning of a charge of conspiracy to violate the neutrality laws. It was charged that Huerta and six others shipped twenty rifles and ammunition to Nogales, Ariz., for the purpose of fomenting a revolution among the Yaqui Indians in Sonora.

It was contended by the defense attorneys, Frank F. Doherty, John O'Connor, and Maurice Rosen, that while it was true that the arms and ammunition were shipped to Tucson and Nogales, the shipments were made not to foment a revolution, but because Huerta had learned of the Yaqui Indians' intention to take Sonora, Mex., and he desired to maintain order there. Testimony was adduced at the trial that preparations had been made to apply a blockade to the munitions across the border and that there was no intention of violating the neutrality laws.

The other defendants, all of whom were accused of being members of the League of the South, were acquitted to Huerta: Alonso G. Moretta, Francisco Perez and Enrique Berceda.

The trial has attracted considerable attention throughout the country because of the prominence of Huerta in Mexican affairs. Charges against Frank N. Thayer, a munitions expert, were dismissed upon request of

### HONOLULU BUYS SAND HERE

Chemists employed by the iron works found the beach sand to be ideal for sand purpose. It is reported, however, that the sand is being salvaged from the dunes by the Kuhn Company of Manhattan Beach. The first shipload will leave San Pedro Saturday.

The government and a separate trial was granted to J. Ross Boles, who was a government witness.

### Robber in Role of Insurance Man Foiled in Ruse

High-pressure methods of a pretended insurance agent failed to impress Miss Irene Smith, cashier of the Brown Derby Cafe at 3427 Wilshire Boulevard, when an unidentified man entered the place early yesterday and demanded to see the policies carried by the establishment.

The young woman was counting

proceeds of the previous day's busi-

ness and was in no mood to be both-

ered and told police. The intruder

then attempted to scare her into

relinquish the papers. When he received a negative reply he drew a revolver and pointed it at her.

He then forced his way into the door of

the rear office in his face and he

started to retreat. On his way out

he encountered Jack Layman, em-

ployee who made no attempt to con-

front the would-be robber when he

up the gun in his hand. The hold-

up man backed out of the place,

jumped into his waiting car and fled.

### DEATH DANCES AS CITY FIDDLERS

Traffic Commission Charges Council With Fatalities

Motorcycle Purchase Delay Declared Responsible

Stinging Letter of Protest Sent by Department

The City Council's delay in purchasing motorcycles for the Police Department was directly blamed by the Traffic Commission yesterday for the unusual increase in traffic deaths in Los Angeles. During January forty-seven persons lost their lives in traffic accidents and during the first two months of February twenty-four persons were killed. The commission said the replacement of motorcycles with automobiles last summer has proved a failure.

The Police Commission last August asked the City Council for forty-four motorcycles for the traffic squad, but it was not until December that the City Council authorized the purchase of the motorcycle equipment. For the past four weeks the Council has had no bid for the motorcycles and has so far failed to act. The Traffic Commission in its letter to the Council said:

"This long-drawn-out delay since August has been responsible for the unusual increase in traffic fatalities in this city and this organization cannot too strongly urge that your honorable body take immediate steps to have the police department with adequate motorcycle patrol to render our streets more safe for both motorists and pedestrian."

"The Traffic Commission does not suggest that the purchase of motorcycles is the only feasible way to reduce traffic fatalities, but it is properly equipped with motorcycle patrol. A continued delay in decision of traffic fatalities is a continuation of traffic fatalities."

"We most respectfully urge that your honorable body take immediate action leading to putting into commission at the earliest date the motorcycles which you have already authorized."

### FATAL LEAP INQUISITION CONDUCTED

Inquest Board Reports on Parachute Death Sunday of Ensign Spencer

Inquiry into the particulars surrounding the death of Ensign Charles Donald Spencer, who was killed in a parachute leap from an airplane over Clover Field Sunday afternoon was conducted yesterday by a special board of inquest named by Admiral De Stiger, commander of the battle fleet. Ensign Spencer was attached to the 8th Battalion.

The board, composed of four naval officers and two from the California and two from the Relief, made its report by radio to the admiral's office, who is at sea, and it was forwarded to the Navy Department. The findings of the board will not be made public until they are transmitted to the Washington officials.

The Navy Department announced last night that the jump, which was made from the commercial airplane, was a private venture and the parachute ripped to pieces as the officer descended.

Spencer's mother, Mrs. F. M. Spencer, 1115 Homesteads, La., where he was born May 10, 1908. The dead officer was graduated from the Naval Academy in 1928. The body probably will be returned to his home for burial, many officers announced.

### OCHS VISITS STUDIO

New York Publisher Watches Filming of De Mille Picture Scene

Adolph Ochs, publisher of the New York Times, who arrived here Sunday on the electrically propelled ship California, spent his first day in San Quentin, California, yesterday visiting motion picture studios.

Accompanied by Mrs. Ochs, their daughter-in-law, Mrs. Milton Ochs, Will H. Hays, film czar, and Harry Chandler, Mr. Ochs lunched with Ochs. De Mille, after which the party watched the filming of some sequences for De Mille's picture now in production.

Following his visit to the De Mille studio the party was taken through both the Paramount and the Metro-Goldwyn-Mayer studios. Mr. and Mrs. Ochs are guests at the Ambassador.

Funeral services will be conducted from the family residence.

### TRADE EXPERT TO SPEAKER

The Women's Traffic Club will have a speaker on foreign trade, its subject being "Solicitation and Commercial Aspects of Trade with Latin America."

show that the certain cures and methods in which they were working deserved financial backing.

Mr. Fullerton stated he loves California more than any place, but that he believes he owes Chicago the preference in locating the cancer institution. He emphasized that its benefits will be available for the established cancer victims, who had not the means to finance expensive treatments and operations. He stated also that he will endeavor to obtain co-operation from other individuals and organizations in swelling the fund.

### BELMONT ALUMNI TO MEET

Belmont High School's Alumni Association will have its first meeting on Washington's Birthday, when former graduates are invited to attend an all-day assembly. The program will start with luncheon in the school cafeteria, after which the graduates will attend a Washington celebration in Tritt Auditorium. The '28 class basketball team will meet a team comprised of alumni in a game after school.

### APPEAL TO YOUNG ONLY HOPE LEFT

Continued from First Page)

trailed along, has earned her job in the movies.

It is one thing to sit astride of a horse; it is another thing to know enough about a horse to keep it going thirty to forty miles a day for 120 days, and still have it fit in good condition.

A cavalry officer is judged by the condition of his horses. Judged by this standard, Gen. Allenby of the British army was the greatest cavalryman of all time. During the desert campaigns of the World War he accomplished the most incredible marches, and put his horses through the most astounding hardships without injury to them.

## PRACTICAL RECIPES

(Requests for recipes and information pertaining  
to cooking and housekeeping should be addressed to  
the author of this column every Tuesday. Address  
to Mrs. Alice L. Clegg, 1215 Wilshire Boulevard,  
Los Angeles 47.)

### CHEF WYMAN'S ANGEL FOOD CAKE

D. Los Angeles, Cal. For your  
angel-food cake, the egg whites must  
be beaten stiff, but the cake  
is always better if left to stand for  
at least twenty-four hours before  
serving.

Chill the whites of six eggs and  
place in a cold dry bowl with a few  
grains of salt and beat until they  
will hold an egg. With a wooden  
spoon gradually fold in two-thirds  
of a cupful of flour. Before the  
sugar is thoroughly folded in a  
cupful of flour. Fold in a cupful of  
sugar and allow to bake in a slow oven  
thirty-five minutes. Allow to cool in  
the tin and become thoroughly cold  
before removing.

### CLAM BRAINS

A. R. Huntington Park, Cal. For your  
clam brains, add a white wine  
and a tablespoonful of vinegar  
for ten minutes; add a slice of onion,  
a little thyme, bay leaf, and pepper  
with improve the flavor of the  
brains. Pour into a casserole  
tin and allow to bake in a slow oven  
thirty-five minutes. Allow to cool in  
the tin and become thoroughly cold  
before removing.

### CLAM CROWDER

D. Mc. South Pasadena, Cal. Place  
the brains for an hour in cold  
water, then add a cupful of flour  
taking a tablespoonful of vinegar  
for ten minutes; add a slice of onion,  
a little thyme, bay leaf, and pepper  
with improve the flavor of the  
brains. Pour into a casserole  
tin and allow to bake in a slow oven  
thirty-five minutes. Allow to cool in  
the tin and become thoroughly cold  
before removing.

## ORATORS HAVE GOAL TO DEFEND

Pasadena High Won First Constitution Contest

Two Others Have Taken Second Places

Eighteen Sign to Uphold Honor of School

Entrants from Pasadena High School in the Fifth National Oratorical Contest have been given a high mark to shoot at by the orators who have represented the school in previous years.

Mrs. Irene S. Peters, faculty member in charge of the contest at the school this year, yesterday recalled that the First National Oratorical Contest champion was a Pasadena High School boy, Arthur Syvertson, who is today studying law in Harvard University. Next year the National Oratorical Contest for high school students, Syvertson entered the University of Southern California and in 1927 won second place in the International National Oratorical Contest. He received \$1000 from his efforts in the intercollegiate contest and \$1500 from the high school event.

Syvertson's participation in the high school oratorical contest, Mrs. Peters said, resulted in his selection of a legal career.

WIN SECOND PLACES

Last year Orrin E. East, Jr., won second place in The Times' grand

group contests for the past two years.

HARITAL WINNERS

At South Pasadena High School

sixteen boys and three girls are

preparing to upset all plans that

Pasadena High School students may have to win The Times' finals. The

South Pasadena orators have won the

group contests for the past two years.

and hope to go higher this year.

Principal John E. Alman said yes-

terday that the National Oratorical

Contest will be held on the

evening of the 20th at the school,

ranking with the athletic contests.

The eighteen boys entering the oratorical contest will be selected in the

writing contests on the Constitution

is compulsory. The school elimina-

tions will be held the middle of

April and the Group B finals at

the evening of April 19.

Principal Alman said the school

auditions will be packed with stu-

dents and will be held on the night

of the Group A finals.

The El Monte Herald, which re-

cently accredited itself as the

most outstanding school in the

area, will hold its

Group A contest on the 20th.

The El Monte Union High School

will be the only high school

in the area to hold its

regularly accredited class in the

constitution in which the

constitution is studied in the

second year of the study of oratory.

Needles High School is entering six

students in the oratorical contest,

three boys and three girls. One of

the boys is the son of the school

body, another vice-president and the

third an honor student.

Pasadena High School is entering

six students in the contest.

Fred Haslam, captain of the foot-

ball team and Thomas Battersby,

president of Chapter Six, California

Scholarship Federation, are among

the group.

Otis Marlan Signs Article

That lively young comedian, Otis

Marlan, has a perfect right to feel

all puffed up these days.

While George Kinsey of Venice, an

associate of the dead man, went to

Jackson's room he found his friend

lying on the bed dead. The walls of

the room were scorched and the bed

clothes were slightly charred. The

body of Jackson, however, was not

burned.

Captain of Detective Steckel of

Venice police station, unable to

determine what Jackson died of

heart disease or of suffocation. It is

possible, Capt. Steckel said, that the

man went to sleep with a lighted

cigarette in his mouth, causing the

room to set afire.

The body of Jackson was removed to

the undertaking parlors of Sharp

and Nolan in Venice.

## DOMESTIC DRAMA ENDS HAPPILY

A little domestic drama was enacted in Judge Beecher's court when Muriel Jones went to get a divorce from her husband on charges of failure to provide properly for her.

In the courtroom were Mrs. Jones, her husband and her mother, Mrs. Jones, young and attractive, was on the witness stand. Judge Beecher seemed to be in the mood for a good time. Mrs. Jones hastened to meet him there. Ballif Tooker gave them some advice.

"You two better fix it up," he suggested. "Well, he's been having a hard time. He's has given me all he could," she said.

"Really, now, I don't think you should have a divorce," Judge Beecher remarked. "Do you?"

"Well, you certainly sounded all right."

Finals and in 1926, Tohru Shimamoto, Japanese student, won second place in the Times' semifinals and in 1927, as well as in the final, he was the junior college oratorical champion.

Mrs. Peters, faculty member in charge of the contest at the school this year, yesterday recalled that the First National Oratorical

Contest champion was a Pasadena High School boy, Arthur Syvertson, who is today studying law in Harvard University. Next year the National Oratorical Contest for high school students, Syvertson entered the University of Southern California and in 1927 won second place in the International National Oratorical Contest. ICELESS ICEMEN  
IN OUR MIDSTFrigidaire Executives Look  
Over Local FieldHead of Party Optimistic on  
Business' FutureGreat Advertising Campaign  
Planned in 1928

Twenty executives of Frigidaire Corporation, subsidiary of the General Motors Corporation, are quartered at the Biltmore for a two-day survey of the refrigeration field of business in Southern California. Headed by R. F. Callaway, assistant to the president and acting general sales manager, the executives now are homeward bound to Dayton, O., on a national swing which has included stops in Chicago, Omaha, San Francisco, Dallas, Atlanta, Boston and New York. They arrived yesterday from San Francisco.

"National prosperity is clearly indicated by statistics compiled in our business," said Mr. Callaway. "Dealing up we do with prospective building and home owners, manufacturers and all classes of retailers we feel that our business furnishes a good cross-section of general conditions throughout the country."

## CHEERING OUTLOOK

"One of the most dependable indications of the time is the interest of the American housewife in a better-looking kitchen as well as a more efficient one. Attention to sanitation, health and beauty is the theme. You can afford to spend some money, let's fix things up and start with the kitchen." The picture as we see it, with 1928 under way, is a very promising one.

"In 1928 Frigidaire Corporation had 400 selling men in the field. Today we have 600. The factory is in operation 7000 hours and employs a total of 20,000 direct employees and this does not include business in foreign lands. It is gratifying to see the progress being made in taking precedents over all other sources of refrigeration in England, with Germany and France mounting for second in the world. We are gratified to see David Lloyd George, Premier Mussolini, for the Presidential yacht Mayflower, for the new capital of Australia, and the government-issue development in New York City.

## FOREIGN BUSINESS

"Ninety per cent of our total business now comes from abroad and splendid progress is being made in South America, Australia and we are acting in the Orient."

"Advertising during 1927 reached \$64,000,000 in insertions in newspapers and \$14,000,000 in magazine and plan publications for this year than last. Facts and figures at hand estimate an increase of from 25 to 50 per cent in the advertising budget of the parts of executives give A. J. Harlan, household sales manager; E. D. Doty, advertising manager; T. B. Fordham, advertising manager; E. C. Cross, chief engineer; J. E. Houser, chief inspector; R. E. Morrison, service manager; G. E. Durfee, public utilities manager; E. V. Varnum, manager of commercial sales manager and E. A. Long, vice-distributor.

WEINGARTNER SOUGHT;  
FATHER DIES IN EAST

A telegram received by Chief of Police Davis yesterday stated that a search be made for Charles Weingartner of West Chester, Pa., who is believed to have been in this city for several weeks. The message stated that his father is dead and asked that he return home immediately. Detective Lieutenant Hamilton of the missing persons' bureau requests that any person knowing Weingartner's whereabouts get in touch with him.

## Avoid Dizzy Spells

Never well. Always tired and fagged out. Beauty faded away by neglect. To be healthy and to keep the system must be free from pinches backwash of constipation, which often causes dizzy spells. For 20 years Dr. F. M. Edwards gave his patients, in place of calomel, a compound of vegetable ingredients, sweetened with oil of camphor. Dr. Edwards' Olive Tablets, known to short-notice oilers. They free the system of poison, that savage health, energy, beauty.

You need never have hollow complexion; dull eyes, coated tongue, throb headaches—all signs that your bowels are clogged, liver is torpid. Take Dr. Edwards' Olive Tablets, right. They act smoothly and without stirring. How much better you'll feel and look! Everywhere wise men and women who know the value of good health take Dr. Edwards' Olive Tablets. All drug-gists, 15c, 30c and 60c.—Advertisement.
